

Pineline Comp-clean FA

Product no.	213								
Description	Highly alkaline detergent concentrate for washing iron, steel and aluminium components in mechanical engineering facilities and workshop maintenance/repair departments. Suitable also for wheel-washing machines with heating option.								
Special features	Low-foaming in temperatures over 60 °C. Removes vaseline, burnt-on oil and grease, and any soot. Protects iron from corrosion.								
Instructions for use	Make sure that no detergent or dirt residue is left in the washing machine. Add detergent concentrate to 70 – 80 °C wash water, concentration 2 – 5 %. The water temperature must be at least 60 °C before starting the washing machine. Add the product to the washing machine on a regular basis to maintain washing power and to prevent corrosion. For wheel-washing machines, the dilution ratio is 1 – 5 %. When washing aluminium, check it is suitable for the product.								
Note!	Read the instructions for safe use on the label or in the Safety Data Sheet. Store sealed at +5...+30 °C.								
Working environment	Ensure adequate ventilation. The product is easily biodegradable and meets Ecolabel requirements.
